WELCOME TO THE WORLD FEDERATION OF CHIROPRACTIC

At the WFC, we envision a world where all people, of all ages, in all nations have access to chiropractic so that populations may thrive and reach their full potential.

Across our seven regions, we advocate for greater awareness of what chiropractic has to offer, better utilization of the services of chiropractors and improved integration of chiropractic into health systems. We also know that chiropractors cannot work without trusted suppliers of top-quality products and services. We understand that building and promoting these relationships is critical. As the largest scientific and academic global event in the chiropractic calendar, our 2025 event - the 18th WFC Biennial Congress - promises to be a dynamic, inspirational experience.

This three-day event will deliver high-impact keynote and breakout sessions, engaging networking events and a vibrant social program. As product and services providers to the chiropractic industry, the congress provides outstanding opportunities to showcase premier products, practice solutions and growth opportunities. Don't miss this exciting opportunity to connect with key decision makers, including clinic owners, practicing chiropractors, educational leaders and association executives. Expose your company to a

global audience and reinforce your commitment to supporting the chiropractic profession.

Our 2025 event in Copenhagen is an unmissable opportunity to participate in chiropractic's leading global event. We look forward to seeing you there!

Richard Brown DC, LL.M
Secretary-General
World Federation of Chiropractic

JOIN US IN COPENHAGEN!

Be a part of the magic. The Danish Chiropractors' Association invites chiropractors from all over the world to participate in a celebration of chiropractic.

Almost 200 years ago Hans Christian Andersen wrote his beloved fairy tales, most of them from his home in Copenhagen. And the old city still contains plenty of inspiration for the mood, action and character gallery of the fairy tales. But Hans Christian Andersen is not the only fairy tale in Denmark. Because 100 years ago on Thursday May 8th, 2025, a group of Danish Chiropractors decided to form the Danish Chiropractors' Association.

Copenhagen in itself is always worth a visit. But when you combine 100 years of chiropractic legacy in Denmark with a historic city founded 1000 years ago, magic really starts to happen.

The Danish Chiropractors' Association along with the Chiropractic Knowledge Hub invites the world of chiropractors to take part in a celebration of chiropractic care and research. To discover, inside the beautiful city of Copenhagen, what chiropractors are capable of and what we as health care professionals can achieve, when we all work together.

A chiropractic congress should be fun and affirming. A fairy tale rather than a lecture. A celebration of who we are as chiropractors and how we can get even better. This is what we have in mind for the 18th WFC Biennial Congress in 2025.

We look forward to welcoming you in Copenhagen.

Michael Christensen
President of the Danish Chiropractors' Association

THE 18TH WFC BIENNIAL CONGRESS

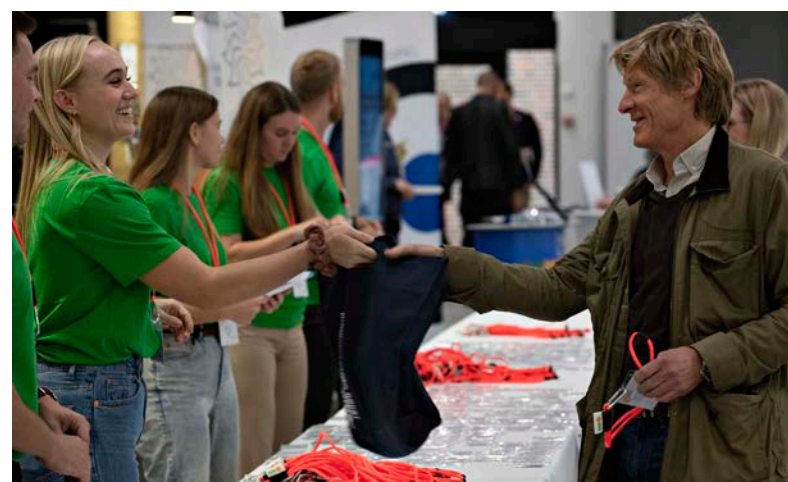

The WFC World Congress is a **biennial congress** which member countries take turns in hosting. The congress is one of the **largest chiropractor congresses in the world** with participants from all continents. All chiropractors are welcome, regardless of where they come from or where they studied. Unique to the congress is the **link between research and clinical practice**, which is why there is a strong focus on strengthening the relationship and collaboration across disciplines.

Who participates? Up to **800 participants from all over the world** are expected, the majority of them from **Denmark, the USA, Canada and most of the European countries**. Most participants will be **clinicians practicing in a chiropractor clinic**, but there will also be researchers from universities and research institutions from all over the world as well as chiropractors employed in hospitals, health clinics, sports clubs or administrative positions.

In addition, politicians from the **national chiropractor associations as well as stakeholders** from other organizations as well as professional societies participate. In addition, guests from home and abroad are invited from insurance companies, universities, professional societies and politics.

The congress lasts **three full days**, during which there will be various plenary and breakout sessions. The target group is clinical practice, which will also be reflected in the academic programme, which will focus on the **latest knowledge, research and implementation in practice**. There will be sessions where new research will be presented by researchers from around the world for sessions of a more clinical nature which will allow the participant to get hands-on. During all breaks, catering will take place in the common area, where the exhibitors also have stands. This means that all exhibitors are centrally located. There will therefore be a good opportunity to meet the participants during the breaks when talk, fun and catering take place around all the exhibitors.

EXECUTIVE COMMITTEE

Richard Brown,
Secretary-General, WFC

Jakob Bjerre,
Director, DCA

World Federation of Chiropractic (WFC)

The World Federation of Chiropractic was established in 1988 and is working with the global development of chiropractic profession.

The WFC's voting members are national associations of chiropractors. Representing the interests of the profession in over 90 countries worldwide, the WFC has advocated, defended, and promoted the profession across its 7 world regions.

The WFC has a vision of a world where people may enjoy universal access to chiropractic so that populations may thrive and reach their full potential. To help achieve this, the WFC works to advance awareness, utilization, and integration of chiropractic internationally.

The WFC is organized into an Executive Committee, a board of Directors, a Research Committee, a Public Health Committee, and a Disability and Rehabilitation Committee. The WFC organization reflects the fact that the WFC is a world organisation, as the various members of the organisation come from all over the world.

The Danish Chiropractors' Association (DCA)

Founded in 1925, the DCA is a professional association organizing more than 1000 chiropractors and chiropractic students. The DCA is the representative body mangler der noget i sætningen - måske ensuring representation chiropractors in and around the Danish healthcare system. And ensuring that chiropractic is practised under well-organized and regulated conditions in Denmark.

The DCA is highly engaged in the promotion and development of chiropractic, research, and education, and the DCA cooperates closely with The Chiropractic Knowledge Hub, The University of Southern Denmark, World Federation of Chiropractic and The Danish Society of Chiropractic.

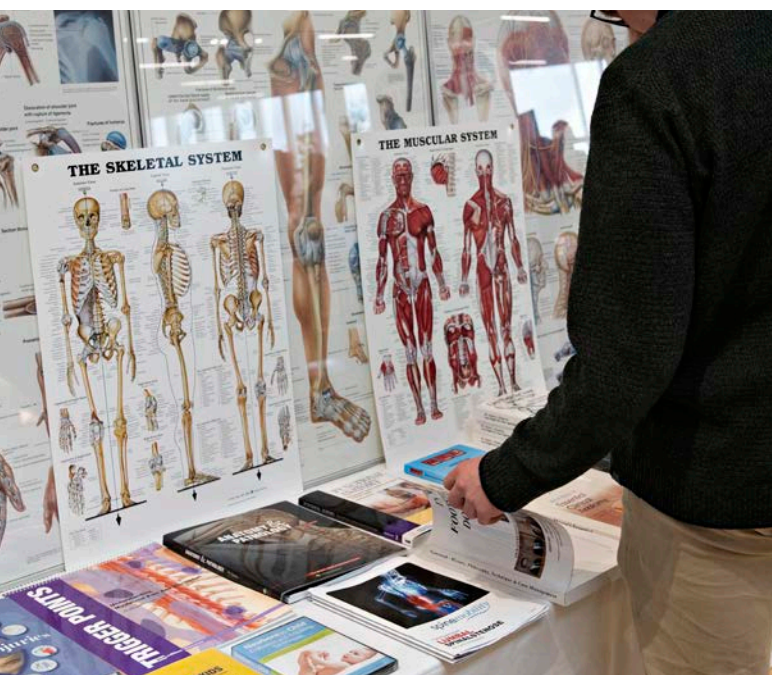

Together with the Danish Government (the Danish Regions) the DCA runs the chiropractic Foundation which supports research and other projects. Over the last 30 years the fund has contributed with over 100 million US dollars to research and other projects to develop the profession.

The Chiropractic Knowledge Hub

Founded on 15 June 1990 as the Nordic Institute of Chiropractic and Clinical Biomechanics (NIKKB), the Chiropractic Knowledge Hub advances musculoskeletal health for the benefit of citizens and the society, nationally and internationally. The core task of the Chiropractic Knowledge Hub is to support the role of the chiropractic profession in the Danish health care system as well as contributing to the evidence-based managing of musculoskeletal matters. The researchers at Chiropractic Knowledge Hub have contributed to over 600 peer-review articles and many of the researchers are global leading experts within their fields.

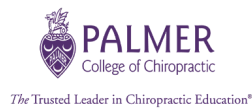

The Chiropractic Knowledge Hub is providing postgraduate courses for the Danish chiropractors and has two divisions which work with X-ray quality and data-based quality improvement in the chiropractic clinics.

PAST SPONSORS AND EXHIBITORS

We are looking for like-minded companies to become sponsors and exhibitors and to complement the academic programme.

PAST SPONSORS AND EXHIBITORS

NON-PROFIT ORGANISATIONS:

INSTITUTIONAL SPONSORS:

ACCESS TO ALL AREAS

We want to facilitate interaction and knowledge sharing between academia and industry, which is why an exhibitor registration also grants access to all scientific sessions.

The commercial exhibition will be held in conjunction with the congress and will be open during all congress days. The exhibition is conveniently located in close proximity to the auditoria and will be the center for serving refreshments and lunch, in order to maximise the amount of time delegates spend within the exhibition area.

We see the exhibition as an important asset to the WFC 2025 congress that connects chiropractors with companies and allows the two worlds to meet and inspire each other.

SPONSORSHIP PACKAGES

All Sponsors are kindly requested to fill in an Application Form which is subject to approval of the Congress.

Marketing and business development

Terms of payment

Full amount is payable within 14 days after signing the Application Form. All payments must be received on or before 16 April 2025 to participate and for acknowledgement in print materials.

Cancellation terms

Following receipt of the approved Application Form, the order is binding and the company is committed to pay as per the above specified payment terms.

Cancellations before 7 May 2024 will incur a cancellation fee of 10% of the total commitment, remainder of the paid fees will be refunded.

Cancellations before 7 November 2024 will incur a cancellation fee of 25% of the total commitment, remainder of the paid fees will be refunded.

Cancellations after 8 November 2024 are non-refundable and require full payment of the amount stated in the order confirmation. The above applies even if the company withdraws from the contract or does not participate in the event.

Cancellation by organiser

Should any force majeure event prevent or unreasonably delay at least 25% of expected WFC 2025 attendees from participating at the event, making it thereby inadvisable, illegal, impossible, or commercially impractical to hold WFC 2025 or to fully perform the terms of the agreement, the agreement may be terminated without penalty and with performance fully excused for any or more of these reasons by written notice from the organiser to the company. We will endeavor to refund as much of the received fees as possible, however WFC 2025 reserves the right to deduct the already incurred costs of the congress before such refund. The remaining funds will be allocated proportionately among the sponsors and exhibitors.

ABOUT THE VENUE

Tivoli Hotel & Congress Center

<https://www.tivolicongresscenter.com/>

A HOTEL WITH DELUXE CONFERENCE FACILITIES AND DENMARK'S MOST BEAUTIFUL AND UNIQUE CONGRESS HALL

Tivoli Hotel & Congress Center has offered facilities and professional expertise for numerous organizers since 2010 -and of course we bring that knowledge and experience to the table when we organize your event. At our hotel, you can arrange everything from small meetings and big conferences to business parties and receptions with cake stands and sparkling drinks.

Tivoli Congress Center creates an atmosphere that inspires people to mingle and network, since it raises the professional and inter-disciplinary level. The world acknowledged architect Kim Utzon has made sure that the formal settings interact with the informal settings and create a healthy indoor climate.

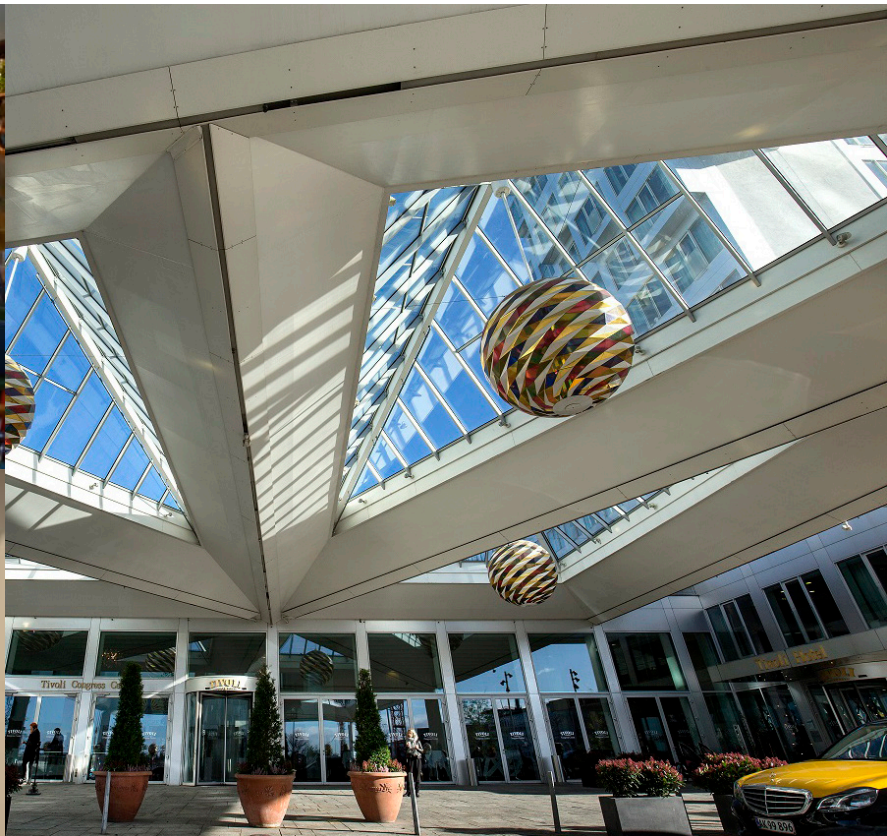

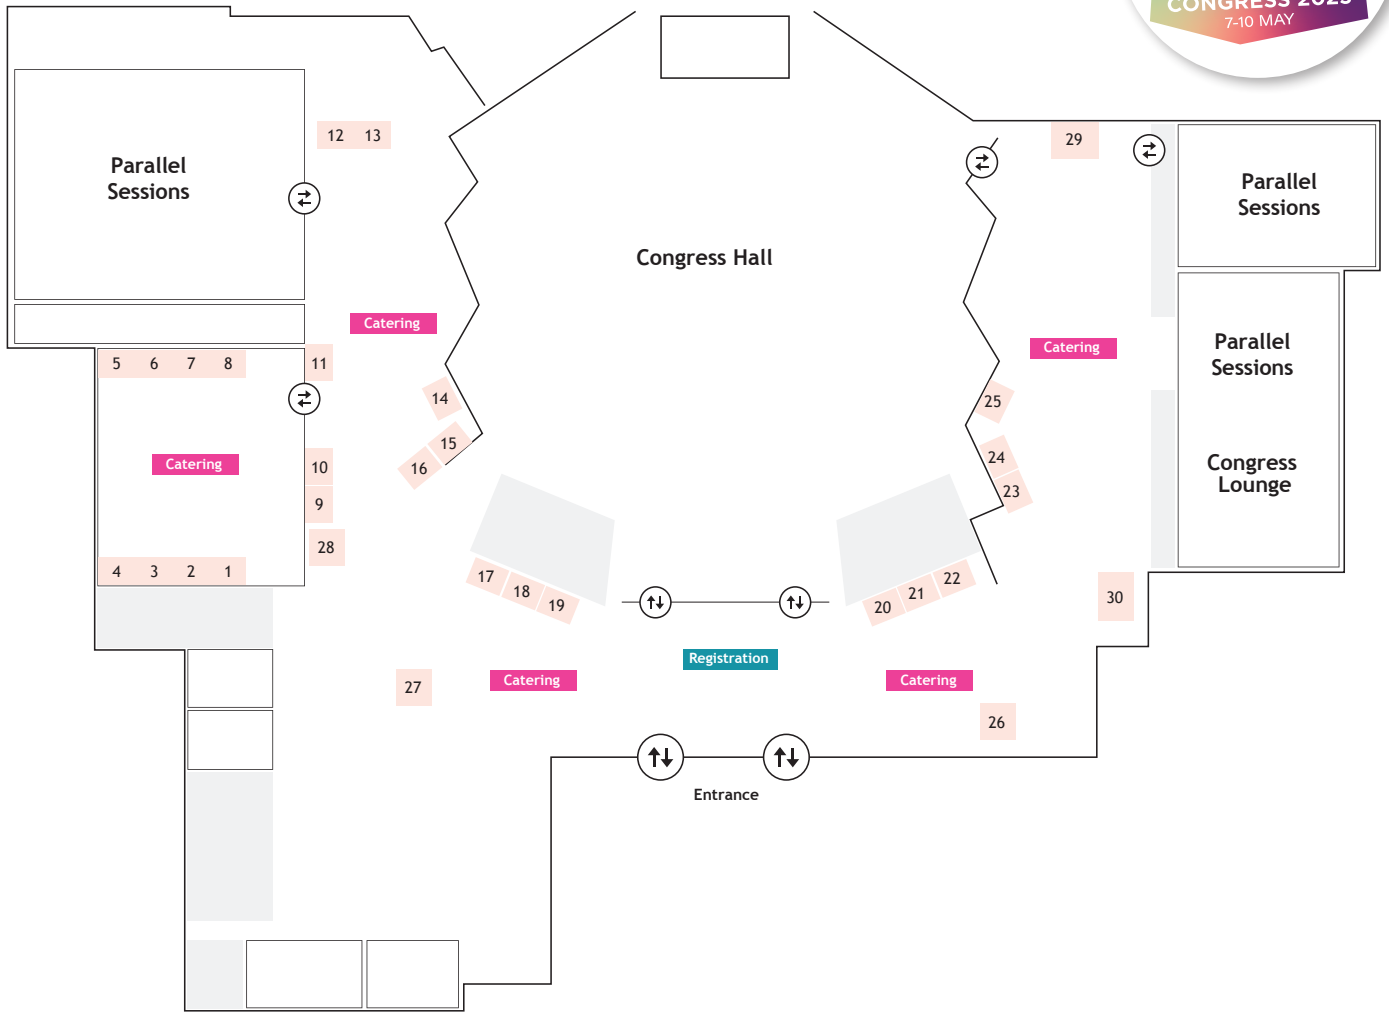

Congress center and hotel under one roof

The impressive Tivoli Congress Hall can accommodate up to 2,400 people, offers 48 conference rooms and auditoriums of varying sizes. The large foyer, which is the first thing you meet when you step inside, serves as an exhibition and catering area for the congress. The entire venue is easy to access whether you come with a small suitcase or large heavy exhibition stands or equipment.

Tivoli Hotel & Congress Center has 679 rooms and suites, all under one roof. There is therefore no risk of getting your feet wet when going to and from Congress. During the congress, agreements will be made with other hotels in the area in different price ranges to suit everyone's needs.
