

Short Biography

Bart Vandendries obtained his Master of Science degree in Physiotherapy and Motoric Rehabilitation sciences from the Catholic University of Leuven (Belgium) in 1998, followed by a Master of Science in Chiropractic from the Anglo-European College of Chiropractic (United Kingdom) in 2002. He has been engaged in clinical practice continuously since completing his studies.

He is the co-founder and co-director of a multidisciplinary healthcare clinic based in Lubbeek, Belgium, where he collaborates with a team of 13 colleagues.

He served as First Vice-President (2011–2015) and subsequently as President (2015–2023) of the Belgian Chiropractors' Union. He is also a co-founder and the inaugural President of the Dutch-Belgian Research Center of Chiropractic (DBRIC).

He currently serves as a member of the Board of Directors of the European Chiropractors' Union.
