

I am a 1993 graduate of CMCC in Toronto. A native of Edmonton, I practise with my wife in Winnipeg, Manitoba and we are thrilled to be soon welcoming our Daughter to the profession and practice. With a special interest in rehabilitation and sports chiropractic I have taken the three-year sports fellowship program and am also certified in Acupuncture and several soft tissue release techniques. Prior to joining the CCA leadership team I had been a long-standing member of the MCA standards committee, . As the chair of the CCA I am committed to the CCA purpose statement of "Supporting Chiropractors for a Healthier Canada". To me this means doing whatever we can to make it easier and more fulfilling for our members to practice chiropractic through the whole course of their career from being a new graduate all the way through to retirement and whatever comes after.
